This CLE seminar, organized by the Young Lawyers Committee, will focus on electronic discovery and technology with an eye towards attorney ethics. Attorneys and an electronic discovery professional will help interpret the big world of electronic discovery: What is Metadata (we’ll show you how to handle it!)? How to create E-Discovery Demands? Is my cloud-based computing ethical? How do I authenticate social media? What are the ethical issues surrounding ESI? And everything else in between – we’ll help you get a handle on electronic discovery, and ensure that you can sleep at night knowing you’re handling it ethically.
